

FAST FACTS

Duration:

42 Months

Completion Date:

February 2019

Total Funding:

€10 Million

Partners:

42 across 15+ countries

Objective:

Establish Safe by Design as a fundamental pillar in the development of nanomaterials or nano-enabled products

Outcomes:

- Nanomaterial grouping strategy
- Associated integrated testing strategy

NanoReg2 Closing Meeting

The NanoReg2 project comes to a close in February 2019 and the consortium is delighted to welcome wider stakeholders on Safe by Design plus Grouping and Read Across of nanomaterials to join partners in Paris to understand advances in nanomaterials safety, regulatory planning and standards.

The meeting is **free of charge** and you will have the opportunity to discuss with partners in detail, project impacts on your own work.

Join us **Tuesday 26 February 2019** in Paris !

Sessions

Presentations will include:

- **NanoReg2 Project Overview:** Achievements over the project lifetime
- **Grouping and Read Across:** Advancing regulatory pathways for nanomaterials
- **Industrial Value Chain Demonstrators:** Commercial application of Safe by Design
- **Safe Innovation Approach and Safe by Design in NanoReg2**
- **The Legacy of NanoReg2:** For research, policy, regulation and commercial development
- **Grouping After NanoReg2:** The next steps for Grouping advances
- **The Future of Data from NanoReg2:** Continuing to build on data in Europe
- **Moving from Nanosafety to Governance:** Creating a trusted ecosystem for nanotechnology.
- **Securing the NanoReg2 Legacy**

Registration

This one day meeting is open to all interested stakeholders and is free of charge.
